

سوال ۳

خروجی:

`sizeof arri[] = 12 sizeof ptri = 8 sizeof arrc[] = 3 sizeof ptrc = 8`

توضیح:

`sizeof(arri) = 3*sizeof(int)=3*4=12`

`sizeof(ptri)=sizeof(pointer)=sizeof(long long int)=8`

`sizeof(arrc) = 3*sizeof(char)=3*1=3`

`sizeof(ptrc)=sizeof(pointer)=sizeof(long long int)=8`
